

John Winn's GALAXY OF THRILLSSM

John Winn's SkyCycleTM The Sky's the Limit!

The original thrill show act created and made famous by the Winn's...

The Winn's aerial SkyCycleTM can be seen high above the crowds at outdoor events, stadiums and indoor arenas. Spellbound crowds and onlookers gaze towards the sky as they watch the daring death defying precision stunts and graceful athletic artistry performed on the Winn's SkyCycleTM!

The Winn's SkyCycleTM features a motorcycle balancing atop a thin steel cable with a trapeze with aerial artists dangling precariously beneath it.

As the show begins, the motorcycle stunt rider revs his motorcycle as he races the wire-climbing motorcycle high up the cable, where aerial artists perform various gymnastic stunts from the trapeze.

The motorcycle rider completes several death-defying stunts, including free-standing on top of the motorcycle. Then, the motorcycle and aerial artist amaze the crowd by defying gravity and flipping the bike and trapeze numerous revolutions around the cable.

The show ends with the motorcycle climbing to the very peak of the cable, where, following the audience's countdown, the motorcycle rider completes and maintains a perilous mid-air handstand as the bike with rider and aerialist slides gracefully backwards down the cable to the ground below.
